UBCM Tax Sharing Principles

- 1) Cannabis legalization should not result in additional local government funding by property taxpayers.
- 1) Local governments should be reimbursed for costs associated with the implementation of legalized cannabis.
- 1) Local governments should be reimbursed for any additional policing costs resulting from cannabis legalization.
- 1) Remaining excise tax revenue (after taking out expenses incurred as part of principles 1-3, and the federal share) should be shared between the Province of BC and local governments.

Production on the ALR

Engagement Opportunities:

- ◆ JCCR meetings;
- ◆ Submission to the Minister's Advisory Committee on the Revitalization of the ALC and ALR;
- ◆ Provincial-local government technical working group;
- ◆ Meeting with the Honourable Doug Donaldson, Minister of Forests, Lands, Natural Resource Operations and Rural Development.

Production on the ALR

Identified Concerns:

- ◆ Production may be detrimental to food security/supply;
- ◆ Increasing land speculation, rising land prices;
- ◆ Policing and security requirements identified in the federal licensing scheme may fall to local governments;
- ◆ Odour and light pollution from cannabis production.

Production on the ALR

UBCM Executive Response:

UBCM requests a moratorium on further use of ALR land to grow non-medical cannabis until the Province undertakes a comprehensive review and broad consultation with local governments on the use of ALR land for the production of non-medical cannabis.
