

BIO – Jason Emmert

Jason Emmert is an Air Quality Planner at Metro Vancouver. Jason manages several climate change related projects as part of the Air Quality and Climate Change team. He is currently leading the development of Climate 2050, the new regional climate action strategy. He is also managing two regional pilots: the Strata Energy Advisor Program and the National Industrial Symbiosis Program. Jason has Master's in Community and Regional Planning from UBC, is a registered Professional Planner and a Member of the Canadian Institute of Planners. He has had the privilege to work with and learn from environmental and community planning professionals in BC and around the world including work in the United States, Kazakhstan and Brazil.
