

Twin Bridge Project

Twin bridge replacement project will commence in the spring 2018. This project will include the replacement of the footbridge at the end of Riverside drive and the installment of a new suspension bridge near the old Twin Bridge site. Expect temporary trail and area closures and construction crews to be present in the area.

Baden Powell Stairs and Retaining wall

A full replacement of the retaining wall and stairs on the Baden Powell section leading down into the Seymour Canyon is expected to take place in summer/fall 2018. Expect temporary trail closures to occur.

Dog Mountain Trail

Continued trail upgrades can be expected for the Dog Mountain trail in the summer of 2018. Expect machines and work crews to be present on the trail during this time.

Homestead resurface and drainage upgrades

Homestead trail will undergo an upgrade in 2018. This will consist of possible culvert replacement, improvement of ditch lines and a resurface of most of the trail. Expect periodic closures throughout the project.

Hydraulic connector upgrade

The Hydraulic connector will undergo a full resurface and drainage upgrade as well as the installation of new kissing gates and signage upgrades.

Fisherman's Upgrades

Fisherman's trail upgrades between Twin Bridges trail and Homestead trail will continue this year with resurfacing and drainage upgrades being the main goal. Expect construction traffic and periodic trail closures throughout the spring and summer of 2018.

2018 Trail Improvements

Several trail upgrades and scheduled maintenance will be completed throughout 2018. These include Dales trail, Cabin Trail, Corkscrew, Forever After, High School League, Circuit 8, and Richard Juryn.
